- DOCKER

### Frame Works
- React.js
- Next.js
- TAILWIND CSS

## PROFILE

I'm a curious and adaptable web developer with experience in both frontend and backend development. I love creating clean, responsive, and user-friendly web applications. As a volunteer web development instructor, I enjoy helping others learn by breaking down complex ideas and solving problems together. Lately, I've been diving into UI/UX design because I'm passionate about building not just functional, but meaningful and intuitive digital experiences. I'm always excited to learn, grow, and bring fresh ideas to the table—especially in fast-paced, creative environments.

## WORK EXPERIENCE

### Intern Backend Developer
**JUNE 2024 – AUGUST 2024**

Perago Systems
Location : Addis Ababa

- Supported backend development using [technologies used, e.g Nest.js, PostgreSQL], assisting with debugging and code quality.

### Backend Developer (Class Group Project)
**2023- PRESENT**

Addis Ababa University

- Developed server-side logic, optimizing data flow and collaborating with teammates to build a functional application.
- Worked closely with teammates to create a functional and scalable application, integrating [any specific APIs, database management, or frameworks].

### Volunteer Web Development Instructor
**APRIL 2024- PRESENT**

Koder Labs & Kefas Tech

- Taught HTML, CSS, JavaScript, react and mentored students through hands-on projects, helping them build essential web development skills.
